

Lunch and Learn with FLIR and A&M Industrial

Join us for this FREE special event to learn about infrared technology and how you can use thermal imaging cameras to your advantage in your job every day.

What you'll learn:

- What is infrared technology?
- How IR cameras measure temperature
- Theories behind IR thermography and heat transfer
- The information you can gain by using an IR camera
- The effects of emissivity, reflection, and transmission on measurements
- How thermal imaging helps improve safety, energy efficiency, and uptime

Where:

Galloping Hill Golf Course
3 Golf Drive
Kenilworth, NJ 07033

When:

Tuesday, October 24th
8am-3pm

Choose from two sessions:
8am-11am or 11:30am-3pm
(Breakfast or lunch included)
