Letter from the President

Dear ASSP Members and Friends,

Hello NJ ASSP Community! We have really had a high flying 2019 with our joint meetings and Spring PDC and...it is because of you! Thank you for joining us and for some, becoming part of the action. We are seeing many loyal long-term faces, along with many new faces. That synergy expands our potential for meaningful mutual impact. Thanks to all of our members who are contributing their time, ideas, and energy, we are having a LOT of fun! Our Membership Chair, Kari Lyons, is developing a list of small and medium sized Chapter tasks or projects for those now asking to get involved. Everyone is welcome at any level of involvement.

Our "full house" OSHA General Industry Safety 10 hour course is underway with rave reviews! Our Stumpy's May meeting was a blast! Congratulations Lauren Cranmer, Past President, on Chapter Safety Professional of the Year award which was presented at that event! Congratulations to Alex Ruiz, Past President, for Region VIII and HSP SPY awards! More congrats to David Olcott, our new Treasurer! The traditional summer pre-certification/baseline knowledge training that is a joint effort between AIHA and ASSP is always a hit and soon underway! Great instructors and lots of information and contact hours for a very low price! We celebrated North American Occupational Safety and Health Week with Bob Sagendorf and OSHA National Safety Stand Down Week! Thanks Robert Jennings, Union Paving, for sharing your success story with us! Exciting and momentum building days for safety professionals! We are planning to support Habitat for Humanity of Bergen County who is hosting their annual 5K Race to Build which will take place on Sunday, June 2nd, at the Overpeck County Park in Ridgefield Park, NJ. See you there!

Remember, we are saving a seat for you and want you to experience our community and networking benefits! Welcome to the next president, my brother from another mother - Rob Ortiz!

Best wishes, *Louise Vallee*, Chapter President

Welcome to NJ ASSP

The **New Jersey Chapter, ASSP**, is the 5th largest chapter in the United States, having over 550 members. Our territory covers Central and Northern New Jersey. If you are interested in safety, health, industrial hygiene or environmental concerns, we hope you'll consider joining our organization. [CLICK HERE](#) to view the new member orientation (a PDF reader is required on your device...if you don't have one yet). The Chapter Members and Officers extend a heartfelt welcome to our new members and encourage you to take advantage of our network, meetings, and trainings to take your education and career development to the next level. We also look forward to meeting you at our next meeting. Please note that your first meeting is free. A sincere welcome to Roque Schipilliti, Rae Brown, Sajid Modan, and Sandy McMullen. We are proud to have you as members of our ASSP chapter.

Member Spotlight - Jill Asch

Jill Asch has been interested in health and safety since high school when she chose to get her Bachelor of Science degree in Industrial Hygiene at Quinnipiac College. Upon graduation, she worked for Johnson & Johnson's Corporate Health and Safety Department while earning her Master of Public Health, Occupational and Environmental Health emphasis, at Rutgers Medical School. As if working and getting a Master's degree wasn't enough, she had her first two children during that time. Upon graduation from Rutgers, she obtained a job with ICF Technology as a Contingency Planner under the Technical Assistance Team (TAT) contract with EPA Region 2. After her third child and took a leave of absence from the

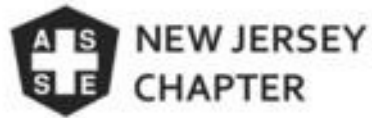

world of health and safety for 11 years. During this time she worked first as a substitute teacher/aide/office worker for her children's school district and was later hired as a special education teacher's aide. In 2001 when her oldest obtained his driver's license, Jill decided to return back to the field of health and safety and leave the chauffeuring around after school to her oldest. Her first day back with Roy F. Weston (now Weston Solutions) was on August 10th. Brushing up on her air sampling techniques, she was supposed to perform her first air sampling on September 13th. However, due to the events of 9/11, this was postponed for a week.

Soon after her first air sampling event, she spent several months working for a client that had offices near Ground Zero. Going from not performing air sampling for years, she was then sampling for several contaminants in several locations for 5-6 days a week! In addition to this client, she also spent several months (twice!) at 130 Liberty Street where she oversaw air and bulk sampling and then performed asbestos air monitoring and site orientation.

In June 2006, Jill was hired by Con Edison of New York and spent 8 years in the Corporate Health and Safety division as Senior Industrial Hygienist. Her final 2 years with Con Edison were spent being the Safety Manager for the Substations Division.

Jill joined Hillmann Consulting in August 2016 and is presently the Corporate Health and Safety Officer. Not only does Jill have her CIH, but her CSP and is an OSHA-authorized trainer. Jill has been married to her high school sweetheart since July 1983 and has 3 kids who are all married to fantastic spouses. She presently has 3 granddaughters and is expecting her first grandson in May! She was President of the NJAIHA from 2009-2010 and convinced Louise Vallee to be President after her.

Industrial Hygiene and Safety Review Course

Industrial Hygiene and Safety Review Course June - August 2019

Members On the Move

Members are preparing for Safety 2019 in New Orleans

Congratulations to our own Alex Ruiz!

Warmest congratulations to Alex Ruiz for his well deserved Region VIII Safety Professional of the Year Award and Hispanic Safety Professionals Safety Professional of the Year Award.

Alex is currently Rutgers Environmental Health and Safety Associate Director and the University Safety Officer and has a long history of significant, innovative work and volunteer safety contributions. He is a Past president of the NJ Chapter. Alex has demonstrated true leadership with the development of life changing student educational and outreach programs. The NJ Chapter unanimously voted to support his nomination and we are all delighted to see such a distinguished safety professional win!

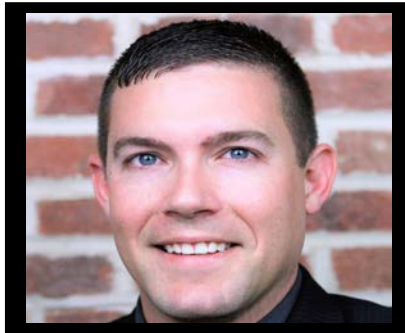

Congratulations to our own Lauren Cranmer

High flying congratulations to Past President, Lauren Cranmer for NJ Chapter Safety Professional of the Year Award! Lauren is Senior Environmental and Safety Manager at Charter Communications.

Lauren's professional and athletic achievements are exemplary, as is her volunteer spirit. She is a Past President of Sustainable Morristown. She is currently President of her condo association. She is a proud WISE member and was featured last year with Spotlight Member recognition.

Congratulations to our new Treasurer - David Olcott!

David has garnered experience in the safety, health, and environmental field while overseeing hazardous waste remediation operations, heavy civil construction & infrastructure improvements, and OSHA and DEP/EPA compliance on project sizes ranging from \$1M to \$200M. With more than 16 years of experience, his expertise is in formulating, administering, and coordinating programs for businesses to reduce the risk of loss. Additionally, his expertise includes safety and environmental plan development, corporate- and site-level oversight, environmental monitoring and sampling, construction safety, and risk management. As a Facility Security Officer at a large defense contractor, he has been responsible for OPSEC and PHYSEC. He is a Certified Safety Professional (CSP), a Construction Health and Safety Technician (CHST), and a Construction Risk and Insurance Specialist (CRIS).

Share your news!! E-mail Membership Chair, Kari Lyons at Kari.lyons@genmills.com

OSHA Safety Stand-Down Week

**NJ SAFETY PROFESSIONAL SUCCESS!!
THANKS FOR SHARING WITH US ROBERT JENNINGS!**

OSHA SAFETY STAND DOWN SUCCESS!! Union Paving is "SAFE BY CHOICE"
Robert Jennings SMS-CUSP-CHST Safety Support Manager NJ ASSP Member

We went to each one of our sites starting Monday doing 2 to 3 a day. Done appropriate to go to the power of choice and about the job work place. We also used this platform to thank our work force for their hard work and commitment in making Union Paving a safer place to work. We handed out hi viz work shirts and hard stickers "stand down 2019". There are 3 words on the back of the shirt Planning-Communication-Commitment. We feel these are three components that go into a safe work environment. Robert Jennings

THE POWER OF SAFE CHOICES

SAFE BY CHOICE

SAFETY WEEK
MAY 6-10 2019

THIS IS WHY I WORK SAFE!

Planning -Communication-Commitment

Our goal as a company is to have zero incidents or injuries. Everyone goes home without injury to their family. No matter what the goal is, the truth is that it takes careful preparation, commitment, and major effort to achieve an injury-free workplace over time.

Creating a Safe Workplace that Results in Fewer Injuries

Every single day a lot of time and effort is spent on ensuring workplaces are safe. That being said, even if we as a company invest in the safest equipment, the highest quality PPE, and training, much effort still needs to occur to ensure the workplace is actually "safe". This is because so much of safety depends on the decisions made by the employees who work here. Even the most careful worker can create risk through a single poor choice made.

Issues that Can Lead to Poor Decision Making

Humans are flawed and so is our decision-making process; even on a good day. There is an endless list of issues, challenges, or reasons that can cause any of us to not make the correct choice in a given moment. Here are some common issues individuals can be dealing with that can negatively impact decision making:

- Complacency
- Overconfidence
- Lack of knowledge
- Lack of focus
- Time pressures
- Fatigue
- Illness
- The list goes on and on

All it Takes is One Decision

There are many companies that have achieved a safe workplace and have sustained it for an extended period of time. Stated above, it takes effort on everyone's part to achieve this. Many decisions and actions had to be taken to ensure safety measures were taken during every single work task. All the effort to work safely can be undermined at any given point by a poor decision made by one person.

Summary

While it is true that one poor decision can result in a serious injury, the same can be said for working safely. To sustain an injury-free workplace over time, it takes one decision at a time to complete work safely. Focus on the task at hand and what actions need to be taken to ensure it can be done the correct way.

MAKE THE CHOICE TO WORK SMART.
A LOT DEPENDS ON IT!

NJ ASSP April 25th Contractors/Maintenance Worker Safety PDC Hits a Homerun!

- 3:45 – 4:15** **Roof and Walking Surface Fall Protection – Leonie Wedderburn, PSE & G, Palisades Electric Division**

What is NAOSH Week?

North American Occupational Safety and Health Week, or NAOSH Week is May 5-11, 2019. NAOSH Week is intended to raise awareness about occupational safety, health and the environment. The American Society of Safety Professionals (ASSP) joined with the Canadian Society of Safety Engineering (CSSE) and the Interdisciplinary Association of Occupational Health and Hygiene of Mexico, Civil Association, (AISOHMEX) to raise the public's awareness of occupational safety, health and the environment in North America during NAOSH Week.

During NAOSH 2019 Week, the New Jersey chapter (NJASSP) members will be promoting NAOSH such as providing safety OSHA safety seminars, Student Safety Awareness Poster contests, National Safety Council Distracted Driver Safety PowerPoint presentation, safety career day at schools, workplace safety activities, toolbox talks, providing employee safety literature and participating in company safety fairs. In addition, NJASSP will be participating in the *6th Annual National Safety Stand-Down to prevent Falls in Construction*. (<https://www.osha.gov/StopFallsStandDown/>). The New Jersey Chapter of the ASSP has also provided a Distracted Driving Press Release to the news media. We have also received a proclamation from Governor Phil Murphy recognizing NAOSH 2019 in New Jersey.

Also, 2007 was the first year that Occupational Safety and Health Professional Day (OSHP) was celebrated. OSHP Day is on Wednesday May 8th. <http://www.naosh.org/english/#partners>

This day was established to honor occupational safety, health and environmental professionals who have dedicated their lives to protecting people, property and the environment. Let's thank a fellow Safety Pro on May 8th!

Each year, NJASSP urges our members to get involved in NAOSH Week in an effort to better educate the public about the positive benefits a safe workplace provides not only for workers, but for their families, friends, businesses, their local community and the global community. In 2018, more than 5,000 people lost their lives from on-the-job injuries and never made it home to their families.

Let's continue to work together to achieve our goal of 0!

NJ ASSP Focuses on Transportation and Distracted Driving

CRANFORD, NJ -- Local members of the New Jersey Chapter of the American Society of Safety Professionals (NJASSP), a state affiliate of the oldest and largest safety society, are concerned that the number one cause of on-the-job and off-the-job deaths continues to be transportation incidents – all modes. Therefore, in celebration of North American Occupational Safety and Health Week (NAOSH) which runs from May 5-11, 2019, the NJASSP along with thousands of other organizations, will be working to raise awareness of the importance of preventing on-the-job and off-the-job accidents, by distributing transportation best practices information and urging all to heed to traffic rules and regulations.

In 2017, there were 6.4 million vehicle crashes resulting in 37,133 people dying and injuring 4.57 million more. In the U.S. alone, car crashes cost all of us \$434 billion each year. Males made up approximately 70 percent of those who died in transportation accidents in 2017, 30 percent were female.

As for weather conditions, in the U.S. the majority of crashes occur during normal weather during daylight hours. The top factors causing fatal crashes are 1) failure to keep in proper lane or running off road; 2) driving too fast for conditions or in excess of posted speed limit; 3) DUI; 4) failure to yield right of way; 5) distractive driving and inattentive (texting, talking, eating, etc.); 6) operating erratic, reckless, careless, or negligent manner; and, 7) failure to obey traffic signs, signals or officer.

The State of New Jersey's experience is not unlike that of the nations. In fact, in 2017, there were over 270,000 motor vehicle crashes of which 1,495 involved the use of cell phones. 591 motor vehicle related deaths which represents 1.62 motor vehicle fatalities per day. Of particular concern were the 183 pedestrian fatalities, which represent nearly 30% of all motor vehicle fatalities, which is 17% higher than the national average of 15%. Distracted driving is a serious problem on New Jersey roads, especially the use of hand-held and hands-free cell phones. In 2017, there were 1,495 crashes involving cell phones in the state, according to the NJDOT, including 1,233 that resulted in injuries to drivers or passengers and two that caused deaths. More accidents involved hand-held devices (407) than hands-free cell phones (361).

Distracted driving is a behavior dangerous to drivers, passengers and pedestrians alike. Distractions including talking on a cell phone, texting, eating and using/looking at a GPS injured an estimated 391,000 people in motor vehicle crashes in 2017, while killing 3,450 others. For drivers 15-19 years old involved in fatal crashes in the U.S., 10 percent of the distracted drivers were distracted at the time of their fatal crash.

Founded in 1911, ASSP is made up of 37,000 occupational safety, health and environmental professionals committed to protecting people, property and the environment so we urge people to drive wisely, follow traffic laws and rules, and to devote one's full attention to the driving task at hand. We also urge law enforcement officials to continue to crack down on those that break traffic laws and state and federal officials to continue to upgrade our roads and bridges.

Businesses can and are doing their part by reviewing their driver safety policies, most are including an element that would prohibit workers from conducting business on a cell phone while driving, mandating seat belt use and developing work schedules that allow employees to obey speed limits and to follow hours-of-service regulations.

We all need to continue to do our part to curb these preventable tragedies. We urge you and your readers to support NAOSH Week this May 5-11, and throughout the year by urging your friends, family and co-workers to drive smart. The tangible and intangible losses due to transportation crashes are extremely high. To learn more about NAOSH Week and to see what our partners are doing, please visit our website at nj.assp.org.

Together we can make a difference.

American Society of Safety Professionals

Bob Sagendorf, 908-276-1000

NAOSH Week Chairman rsagendorf@eielectric.com

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

Proclamation

WHEREAS, the residents of the great State of New Jersey recognize the importance of a safe and healthy workplace; and

WHEREAS, more than 4,600 workers die from job-related injuries every year in the United States and millions more suffer from occupational illnesses and injuries, the majority of which are preventable; and

WHEREAS, businesses spend \$170 billion per year on the costs of the most disabling workplace injuries; and

WHEREAS, by ensuring safe work environments, organizations can increase productivity and employee satisfaction; while also improving their reputation, lowering the amount of time lost, and lowering the costs of health care and compensation for workers; and

WHEREAS, during the week of May 5-11, the American Occupational Safety and Health Week (NAOSR), the American Society of Safety Engineers, the Occupational Safety and Health Administration and other groups representing thousands of businesses will mobilize in an effort to increase employee, employer and public awareness of job-related safety and help companies and organizations enhance safe working environments; and

WHEREAS, May 8, 2019 shall mark the recognition of occupational safety and health professionals throughout the State who work tirelessly to protect people and properly advocating for safe and healthy working conditions;

NOW, THEREFORE, I, Philip D. Murphy, Governor of the State of New Jersey, do hereby proclaim:

MAY 5 THROUGH MAY 11, 2019

AS

OCCUPATIONAL SAFETY AND HEALTH WEEK

in New Jersey and encourage all industries, organizations, community leaders, employers and employees to support activities aimed at increasing awareness of workplace safety and preventing job-related injury for all.

Lt GOVERNOR

GIVEN, under my hand and the Great Seal of the State of New Jersey, this twenty-fifth day of April in the year two thousand nineteen, the two hundred forty-third year of the independence of the United States.

NJ ASSP Offers OSHA Industrial Safety 10 Hour Class

AMERICAN SOCIETY OF
SAFETY PROFESSIONALS
New Jersey Chapter

Agenda

OSHA 10 General Industry Course

Location: Rutgers University EHS, 74 Street 1603, Bldg. 4116, Piscataway, NJ

Saturday, May 18, 2019

8:00 – 8:30 am	Registration, Networking & Continental Breakfast
8:30 – 8:45	Course & Individual Introductions
8:45 – 9:45	Introduction to OSHA
9:45 – 10:45	Personal Protective Equipment
10:45 – 11:00	Break
11:00 – 12:00 pm	Material Handling
12:00 – 1:00	Walking & Working Surfaces
1:00 – 1:15	Review and Q&A Box Lunch

Saturday, June 1, 2019

8:00 – 9:00 am	Hazard Communication
9:00 – 10:00	Bloodborne Pathogens
10:00 – 10:15	Break
10:15 – 11:15	Introduction to Industrial Hygiene
11:15 – 12:15 pm	Electrical Safety
12:15 – 1:15	Emergency Planning
1:15 – 1:45	Managing Safety & Health
1:45 – 2:00	Course Summary and Q&A Box Lunch

- Attendance at both sessions is mandatory - May 18th and June 1
- First come - First served (40 MAX attendees)
- The OSHA card never expires (local or state regs may supersede)
- Cadre of outstanding instructors assembled
- Start/end times firm - Young workers encouraged but must be accompanied by parent at all times
- OSHA cards will be available within two weeks (or sooner) from end of course

NJ ASSP OSHA 10 General Industry Course

May/June OSHA Industrial Safety 10 Hour Course – Day 1!!

Thank you Co-Hosts – Alex Ruiz and Jack Fearing (also speakers)

Thank you additional Speakers; Joe Schwed, Christiano Godoy, and Rob Ortiz. Day 2 – Joe Kapp, Jon Senchisen, Jean Kristensen, and Bob Sagendorf.

Thanks to Our Inspiring Attendees!

Fayaz Ahmed, Seun Akinbolusire, Yetunde Akinrinmade, Harsha Amirthajothi, Sellamu Amirthajothi, John Berth, Rae Brown, Wade Byrum, Lauren Cranmer, Aline Da Rocha, Cathy Ann Gilman, Carol Godoy, Jose Gonzalez Fernandez, Evan Kutzin, Peter Mendonez, Danielle Mengistab, Lorenzo Morris, Thomas Morris, John Mulhern, Matthew O'Donnell, Laura Pahl, Christopher Pope, Adeniyi Raji, Karen Richards, Pablo Rios, Ruben Rodriguez, Humberto Rosario, Tammy Rossomando, Philip Saul, Alexandra Shishkova, Tim Smith, Elisa yager, JuniorYnfante, Dhanya II-iv, and David Zeremsky.

Congratulations to the NJ ASSP Scholarship winners!

1. Ted Brickley and Bernice Shikora Scholarship - Joseph Penta.
2. Joyce Cunningham - Frank Gesualdo

New Readings

I needed to pick up some good reading for my flight to the National Electrical Contractors Association Safety convention in San Antonio, and was pleased to find *The Hospitable Leader*, by Terry A. Smith, 2018, Bethany House, a Division of Baker Publishing.

The gist of Smith's book is that our colleagues, presentation audiences, etc. are more responsive, involved, and collaborative when they feel welcomed and we (their teacher, safety professional, or leader) has created a more hospitable environment. Depending on your personal philosophy, he uses some religious references, but his suggestions are intriguing. I found Smith's propositions to be compelling, and hope to make good use of them. Best, Wayne Baruch

May NJ ASSP Meeting at Stumpy's

The meeting was a BLAST! Thanks to Frank for organizing it! Many people got bull's eyes! A number of new faces along with the beloved crew.

Frank presented Lauren with her Chapter SPY award which apparently just came out! Way to go Lauren and warmest congratulations!

CSP Question of the Month

According to OSHA 1926.502, a controlled access zone is:

- a) The area under a crane's lift
- b) The area adjacent to a missing guard rail when there is risk of a six-foot or greater fall
- c) The area adjacent to a missing guard rail when there is risk of a four-foot or greater fall
- d) The area between 6' and 25' from an unprotected leading edge.

Seeking Employment or have a job or article to post?

Senior Risk Engineering Consultant

Crum & Forster is a multi-line commercial insurance carrier based in Morristown, NJ. A Senior Risk Engineering Consultant with property and casualty skills is being sought to provide large/middle market on site prospective and newly bound account surveys, as well as service to existing clients. This unique opportunity emphasizes communication and collaboration with the internal underwriting and claims team for the achievement of profitability and loss containment goals. C & F Risk Engineering develops and implements client service plans and supports client compliance with focused risk improvement recommendations. Innovative project work expanding client resources and offerings is also a highlight for 2019/2020 and factored into workload requirements. <http://www.cfins.com/about-us/> This position will be based in Morristown or Jersey City. louise.vallee@cfins.com <https://nj.assp.org/encounters-jobs/senior-risk-engineering-consultant-2/>

Many thanks to our newest sponsor: Crum & Forster - Admitted Division!

The image shows a digital award certificate and a business card for Crum & Forster. The certificate, on the left, features the Crum & Forster logo (CF) and the text: "CRUM & FORSTER A FORSTER COMPANY", "Excellence in Service & Partnership" (in a circular seal), "Congratulations to the C&F Claims Organization", and "Winner of the Graham Company 'Excellence in Service Partnership' Award". Below this is a section titled "About Crum & Forster" with the text: "With a proud history going back to 1822, Crum & Forster provides specialty and standard commercial lines insurance products through our admitted and surplus lines insurance companies." To the right is a business card for John Binder, President of Commercial Lines, with contact information: T 973.490.6620, E John.Binder@cfins.com. The card also lists "Lines of Business" (Commercial Package, Commercial Auto, Commercial Property - COP, General Liability, Workers' Compensation, Professional Liability, Umbrella) and "Program Options" (Guaranteed Cost, Large Deductible).

NJ ASSP SPONSORSHIP

Your sponsorship visibly supports NJ ASSP safety goal achievement while marketing your company's brands to members and their organizations. Members and non-members often access the NJ ASSP web site looking for the diverse information provided, including vendors.

Please contact: Louise Vallee, NJ ASSP, louisevallee7@gmail.com or 908-763-5573. For more information, visit: <https://nj.assp.org/sponsorship/>

And last, but not least.....We're sponsoring a vendor table – see you there!

The flyer for the "8th Annual 5K Race to Build" is set against a background of a park with runners. It features the Habitat for Humanity of Bergen County logo at the top. The main text reads: "8th Annual 5K Race to Build". Below this, it specifies the date and time: "Sunday, June 2nd", "Check-in 9:00 am • Race Start 10:00 am". The location is "Overpeck County Park, 111 Challenger Road • Ridgefield Park, NJ". Registration fees are listed as "Online Registration Fee: \$20 • Race Day Registration: \$25". A yellow starburst graphic on the right says "First 100 Registered receive 5K T Shirt". At the bottom, it provides the website "habitatbergen.org/Donate" and the phone number "201-457-1020".
