HURRICANE KATRINA: PROTECTING RESPONDERS THROUGH SAFETY AWARENESS & TRAINING

As a result of this unprecedented natural disaster, countless agencies, companies and organizations are continuing to be faced with sending responders to the affected areas. While many of these persons are trained professionals such as firemen, police officers and first responders, many are not, such as Claims Adjustors and volunteers among many others. The hazards these people will encounter are unlike anything ever faced in this country. The flood waters are contaminated with insects, animals, human beings, and decay and acts as a significant medium for the transmission of infectious diseases beyond what has ever been seen in the US. Skin and mucous membrane contact with contaminated flood water and debris is the primary route of exposure. Care and concern over a clean food supply, water, and general personal hygiene needs to be addressed. It is recommended that appropriate

precautions be made available to the workers that are consistent with guidelines provided by the Center for Disease Control (CDC), including appropriate vaccinations. Information is updated periodically at their web site at www.bt.cdc.gov/disasters/hurricanes. Depending on the activities and environments persons in the affected areas will encounter, different vaccinations will be recommended. For example, Hepatitis A shots are NOT recommended for all persons. Companies and agencies sending personnel to the affected areas should review the CDC guidelines to determine the appropriate vaccinations. It is recommended that vaccinations be given before reaching the affected areas as there is a concern for the availability of vaccinations as you get closer to the affected areas. Not to be overlooked in the anxiety to protect against these unusual infectious disease hazards is

the need to advise, train and protect people from exposure to more traditional hazards such as: electrical, slips/falls, material handling, confined space, machining (chain saws), mold as well as mental well-being. Each company, agency or organization should assess and plan for each of these hazards as they relate to the activities that will be faced. Again, the exposures and risks are unprecedented and all involved need to go beyond the usual safety and health protocols. It is recommended that anyone going to the affected areas consider at least the following precautions:

A Louisiana Parish—Post Katrina

PRESIDENT'S MESSAGE

Our September meeting was very successful. We were able to collect \$75 to donate to the American Red Cross for Hurricane Katrina victims. Our speaker was Jeff Teitel and he talked about minimizing financial and legal liabilities associated with EHS assessment activities.

The Chapter has finalized its fall Professional Development Conference (PDC). The proceeds will benefit our scholarship recipients. The PDC will be held

on 11/1 in PSEG Power Support Center in South Plainfield. Six Sigma and Lean will be discussed by Christin Biernat who is a Honeywell Six Sigma Blackbelt. We have applied for CEU and CM points.

We will support the NJ Special Olympics Fall Sports Festival on Sunday, October 23rd in Lawrenceville for soccer. For those of you who have participated I think you will agree that helping out with the Special Olympics is a very rewarding and satisfying

experience. Each year I continue to be impressed by the talent and dedication of the participants. See the attached sheet for volunteer information. In recognition of Fire Prevention Week, the Chapter has sponsored a Fire Safety Poster Contest with the Chatham Township Fire Department. Children in grades K-3 have been invited to enter their posters into the contest.

Winning posters will be displayed on our website.

(Cont. On Page 3)

NEXT MEETING:

**DATE: OCTOBER 25,
2005**

**PLACE: WYETH
MADISON, NJ**

TIME: 4:30PM

**TOPIC: JOINT ASSE-
ACHMM MEETING
"EHS ISSUES
ACING MULTI-
NATIONAL
COMPANIES"**

(SEE PAGE 9 FOR DETAILS)

PROPOSED CHANGES TO NJ ASSE BY-LAWS

On an annual basis the Immediate Past-President is required to conduct a review of the Chapter By-Laws and to report to the NJ ASSE Executive Board the results of this review, including any proposed changes to the By-Laws. The Executive Board then reviews and votes on any proposed changes. After the Executive Board review and vote has been completed, any amendments approved by the Executive Board are required to communicate to the Chapter membership (via Chapter newsletter) and a comment period of at least 30 days must ensue. Following the comment period, a vote by the Chapter membership is required to take place at a Chapter meeting where acceptance of the proposed by-laws will take place dependent upon an affirmative vote of at least two thirds of the members present at that meeting.

On September 15, 2005, the NJ ASSE Executive Board approved the following proposed By-Laws amendments:

- Article V--Officers, Section 7 (f), (j), Article VII--Section 2 (d) - Administrative changes have been made to reflect updated filing dates for required reports (to ASSE National, ASSE Area Director and the Internal Revenue Service).
- -Article V--Officers, Section 9 (d) - The Chapter is required by ASSE National to send three representatives to the ASSE House of Delegates meeting, held in conjunction with ASSE National's annual professional development conference. In order to comply with this requirement, the Chapter needs to allocate sufficient funds to reimburse Chapter Delegates, usually the Chapter President, President-Elect and Vice President (or designated proxies), in the event that one or more of the delegates are unable to obtain funding for travel expenses from their respective employers. The existing by-laws allows for Chapter Delegates to be reimbursed up to \$1,000 for such travel expenses. The proposed change to the by-laws would increase that allocation to \$1,200.
- Article VI--Nomination and Election of Officers, Section 5 - The existing by-laws require officer elections to be held every April and that, if there are two or more candidates for the same position, then only a written ballot is permitted to satisfy the election requirement. Since reliable technology is available to conduct on-line/electronic voting, a change to the by-laws has been proposed that would allow balloting to be conducted electronically (in addition to written ballots).

In accordance with the Chapter By-Laws requirement, the 30-day period in which the Chapter membership may comment on the proposed changes will be November 1 - 30, 2005. A vote on the proposed changes will take place at the December NJ ASSE meeting. The meeting details are as follows:

Date: Thursday, December 8, 2005 @ 5:00 p.m.
 Location: L'Affaire - 1099 Route 22 East, Mountainside, NJ 07092
 (Our Past President's Meeting)

In accordance with the Chapter By-Laws requirement, the 30-day period in which the Chapter membership may comment on the proposed changes will be November 1 - 30, 2005.

**Calling All Past Presidents!
 HOLD THIS DATE!
 DECEMBER 8, 2005**

MEMBER OF THE MONTH—FRANK GESUALDO

Frank is currently the chapter Secretary and has been a member of ASSE for 17 years. For the past 2 years he served as the Risk Management Chair. His entire 17 year professional safety career has been as part of Liberty Mutual's Insurance Co.'s Loss Prevention Department. For the first 11 years, Frank provided safety consulting services to customers in the General Industry and Transportation segments. Currently he is the Region LP Manager for the Northeast region.

Although Frank did not initially intend to pursue a career in

safety field, he found the wide variety of businesses and industries he had the opportunity to work with, along with the opportunity to help people avoid being injured were rewarding enough to make this his career. Being able to see how hundreds of companies address health and safety issues not only provides a never ending variety of work experiences, but provides a continuous learning environment that can then be applied to help improve other customer situations.

His most rewarding professional experience was managing Liberty Mutual's on-site presence at the World Trade Center Clean-up project in which over 100 Liberty Mutual consultants provided service to the site. In partnership with other private and governmental agencies, Liberty played a major role in ensuring the project was completed with no fatalities.

Frank has been married for 8 years to Debbie and has 2 boys, Frankie age 7 and Matthew age 5, plus a dog named Yankee.

Frank Gesualdo, NJASSE 2005-2006 Chapter Secretary

WEB WALKING WITH WEISSMAN

By Barry R. Weissman, REM, CSP, CHMM, CHS-III

In this installment, we walk through the web pages of NIOSH – the National Institute of Occupational Safety & Health.

NIOSH was formed from the same law that formed OSHA. It was established “to help assure safe and healthful working conditions for working men and women by providing research, information, education, and training in the field of occupational safety and health.” However, NIOSH comes under the Centers for Disease Control (CDC), which is under the Department of Health and Human Services, rather than the Department of Labor, where OSHA is located.

If you haven't investigated the NIOSH website; where have you been!?

They have recently changed their homepage, but it still has the easy to navigate links. There is an A to Z subject search as well as a key word search function. I like to review their publications page and click on “NIOSH Publication List.” Here I can download and/or order copies of NIOSH publications. They have made it so easy to order. You can either call their toll-free number, 1-800-35-NIOSH (1-800-356-4674), or click and email your publication request to pub-staft@cdc.gov.

Until next time, let's continue walking the web to find the information you need. If you have links that you would like to publicize, write to me at RegulatoryMavin@yahoo.com.

If you haven't investigated the NIOSH website; where have you been!?

PRESIDENT'S MESSAGE

(CONT. FROM PAGE 1)

Our next meeting is Tuesday, October 25th at Wyeth in Madison. It is a joint meeting with the NJ ACHMM and the topic is EHS Issues Facing Multi National Companies. I look forward to seeing you at a meeting and welcome your comments and ideas president@njasse.org.

Sincerely,

Gina Mayer-Costa, CSP, CHMM

President, NJ Chapter ASSE

INTERNATIONAL SAFETY

TIDBIT

The European Union recently launched a global safety and health portal operated by the European Agency for Safety and Health at Work. The new [Website](#) includes services such as an online thesaurus in 20 languages, national site navigation, downloadable publications and a new “noise at work” Web feature.

NEW CHAPTER MEMBERS

Congratulations to our newest chapter members:	Bonnie L. Ford	Danny R. Pohan
Gerard Aceti	William H. Gross	Jose A. Riveiro
Pamela Biondio	Anne C. Kilroy	Carolyn Seifried
Matthew E. Briggs	Ellen T. Kondracki	Stephen D. Turpin
Paul J. Carroll	Daniel Lanktree	Marc H. Wendell
Nelson D. Debow	Eric P. Lau	
Scott C. Dunsmore	James Luke	We look forward to see you at our next meetings.
	Robert G. Murphy	

THE NJ ASSE NEWSLETTER

The newsletter is interested in any EHS-related topics including articles, news reports, interesting facts, and/or pictures. If you would like to write a piece for this newsletter or have a safety-related article and would like it included in this newsletter here please contact: Newsletter Editor Daniel Rollino by e-mail at newsletter@njasse.org

SOCIETY NEWS

It is with great sorrow that I am writing to inform you of the passing of a true mentor and friend to many of us, Dr. Raymond Manganelli. Doctor Manganelli passed away on the morning of Sept. 21st. Donations can be made to:

Rutgers University Foundation for the **Raymond M. Manganelli Award**: Awarded to a junior or senior majoring in environmental studies/ science based on academic performance, scholastic ability, and interest in environmental studies.

Dr. Manganelli will be missed.

CHAPTER MEMBERS YEARLY ANNIVERSARIES

Thank you to our following members on their continued commitment to NJASSE:	Name	Yrs. of Service	Name	Yrs. of Service
	Micheal Commons	25	Michael Marney	25
	Gordon Harner	25	Joseph Mayer	25
	Michael Hembrook	25	David Miller	40
	Martin Kawalek	25	Robert Sagendorf	25
	Jack Leonard	25	Harvey Staple	25

Have you received a promotion, new job, marriage, birth? Let us know. We would like to share this information with our membership. Email: Newsletter@njasse.org

HURRICANE KATRINA: PROTECTING RESPONDERS THROUGH SAFETY AWARENESS & TRAINING

(CONT. FROM PAGE 1)

1. Drinking Water - don't underestimate the amount that will be needed to be carried with persons in their vehicles. Water is not readily available anywhere within the area.
2. Running Water - depending on where you are, there isn't any. Showers/Bathing may be infrequent and/or non-existent. Consider bringing plenty of hand-wipes so you can at least wipe off you face and hands.
3. Mosquito Repellant - have lots of it and apply it religiously. Disease from mosquitoes is a major concern.
4. Cut Prevention/Care - tied to the above. Disease and infection is a major concern. Anyone working in the area should treat minor cuts immediately to reduce the possibility of infection.
5. Face masks - the smell in certain areas can be overwhelming (sewage, dead animals, floating bodies, stagnant/polluted water, etc).
6. Snakes are a concern - many people have been bitten. Consider anti-venom or procedures to deal with snake bites.
7. Powder for sweaty feet and other bodily areas. Tied to the possibility that bathing may not be readily available. Not only due to sweat, but also because workers may be working in extremely wet environments.
8. Remember that security in general may be an issue.
9. Mental well-being - secure the availability of a recognized counseling resource for persons who may be in need of counseling.

Additional information can be obtained at <http://www.dol.gov/opa/hurricane-recovery.htm>

Submitted by:

Frank Gesualdo, CSP

Region Manager - Loss Prevention
Liberty Mutual Insurance Co.
Somerset, NJ

Special thanks to Lori A. Adams, RN, COHN-S of Liberty Mutual Insurance Co.'s Loss Prevention Department out of Weston, MA for her extensive research into this issue. Information was obtained and considered from numerous sources such as FEMA, OSHA, CDC Federal Occupational Health (FOH) and Liberty Mutual's Medical Director.

"...The hazards these people will encounter are unlike anything ever faced in this country..."

BUSH NOMINATES HEADS FOR OSHA & MSHA

On Sept. 15, President Bush announced his intention to nominate Edwin G. Foulke Jr. as OSHA administrator and Richard Stickler as administrator of the Mine Safety and Health Administration. Both agencies have been without permanent administrators since the resignations of John Henshaw of OSHA and Dave D. Lauriski of MSHA in December 2004.

Foulke is a partner with the law firm of Jackson Lewis LLP in Greenville, SC. He served as

chairman of the Occupational Safety and Health Review Commission during the administration of President George H.W. Bush.

Stickler served as director of Pennsylvania's Bureau of Deep Mine Safety and worked for Beth Energy Mines Inc. for 30 years. Both nominations require Senate approval and will be referred to the Senate Health, Education, Labor and Pensions Committee.

OSHA INFO

On Sept. 13, OSHA issued a final [rule](#) revoking references to outdated industry and national consensus standards in its standards on Temporary Labor Camps, Guarding of Portable Power Tools, Sawmills, Flammable and Combustible Liquids, and Arc Welding and Cutting. On Nov. 24, 2004, the agency announced it was engaging in an overall effort to update OSHA standards that reference or include language taken directly from outdated consensus standards.

VOLUNTEERS NEEDED!

Date: **Sunday, October 23, 2005**

Place: **Lawrenceville School
Lawrenceville, New Jersey**

Time: **9:00 am – 4:30 pm**

Plans are being finalized for the Chapter and members to participate in the

2005 NJ Special Olympics Fall Sports Festival

on Sunday, October 23, 2005, at the Lawrenceville School in Lawrenceville, New Jersey.

The sports venue is **Soccer**.

Volunteers are needed for several positions including announcers, scorers, field escorts, shaggers, and awards. Chapter members, family members (minimum age is 16) and friends are all welcome to participate. All volunteers must register online prior to the event and have appropriate identification at the venue. They will receive a Fall Sports Festival tee shirt. Visit the New Jersey Special Olympics website at www.sonj.org to download volunteer information for the Fall Sports Festival and for more information about upcoming events and other volunteer opportunities.

**Protecting
People
Property
and the
Environment**
since 1911

Listed below is the tentative schedule of 2005-2006 ASSE meetings, locations and topics for the upcoming months. Please be sure to check the NJ ASSE website njasse.org for changes or updates.

DATE	TOPIC	LOCATION	TYPE & TIME
September 15, 2005	Expanding Individual Liabilities for EH&S Professionals (Sarbanes - Oxley)	Snuffy Pantagis Restaurant (Scotch Plains)	Dinner: 4:30 - 7pm
October 25, 2005	Joint ASSE-ACHMM Meeting EHS Issues Facing Multi-National Companies	Wyeth, Madison	Dinner: 4:30 - 7pm
November 1, 2005	Six Sigma and Lean Manufacturing for EHS	PSEG Power Generation Support Center, South Plainfield	PDC 8am-4pm
November 10, 2005	Fleet Safety for Company Drivers	McAteers Restaurant, Somerset	Dinner: 4:30 - 7pm
December 8, 2005	OSHA Update and Past Presidents Meeting	L'Affaire, Mountainside	Dinner: 4:30 - 8pm
January 12, 2006	EHS for the US Army in Iraq and Brewery Tour	Anheuser-Busch, Newark	Dinner: 4:30 - 7pm
February 9, 2006	Behavior Based Safety and Benjamin Moore Tour	Benjamin Moore & Co., Flanders	Dinner: 4:30 - 7pm
March 9, 2006	Joint ASSE-AIHA Meeting: Nanotechnology	TBD	Dinner: 4:30 - 7pm
April 1, 2006	NFPA 70E: Electrical Safety in the Workplace	PSEG Power Generation Support Center, South Plainfield	PDC 8am-4pm
April 26, 2006	ANSI Z-10 Occupational H & S Management Systems	Safety Expo - Atlantic City, NJ	2:00 pm
May 11, 2006	Joint Meeting with Penn Jersey: Workzone Safety and Scholarship Awards	TBD	Dinner: 4:30 - 7pm

SEPTEMBER 15TH, 2005 NJASSE MEETING HIGHLIGHTS

The guest speaker for the September 15th, 2005 NJASSE Meeting was Mr. Jeffery H. Teitel. The presentation entitled **“Minimizing Legal and Financial Liabilities Associated with Proactive Internal EH&S Assessment Activities (audits, self-assessments, inspections, etc.)”** provided valuable insight into an important topic affecting the EHS industry. Mr. Teitel's presentation focused on how the EHS audits we safety professionals pro-

duce and the legal and financial impact of the recommendations contained within the audits. Due to the rise in corporate problems relating from document control and the Sarbanes-Oxley Act, safety professionals must ask serious questions regarding the handling and control of the documents and recommendations we produce.

Jeffrey H. Teitel & Bob Sagendorf at the September NJ ASSE Meeting

New Jersey Chapters
ACHMM and ASSE Dinner Meeting

DATE: October 25, 2005 DINNER MEETING
TOPIC: [Environment, Health & Safety Issues Facing Multi-National Companies](#)
SPEAKERS: Mr. Perry Howard, PG, Director, Wyeth
Dr. Lawrence Wylie, PhD, CIH, CSP, Associate Director, Wyeth
Mr. Alan Moran, CSP, Senior Director, Wyeth
LOCATION Wyeth Seven
Giralda Farms
Madison, NJ 07940

PROGRAM:

5:00 PM Registration, **NETWORKING**
6:00 PM Dinner
6:45 PM Technical Program (1 hour 15 minutes)

[“Environment, Health & Safety Issues Facing Multi-National Companies”](#)

Sarbanes-Oxley Influence on Environmental Liability Management Systems (Howard)

- * Identification of Financial Risk & Environmental Liability
- * Development of Control Systems
- * Independent Audit of System
- * Sustainable Management System

Hazardous Compound Risk Control (Wylie)

- * Setting internal Occupational Exposure Guidelines
- * Setting Hazard Control Bands
- * Evaluating Containment Technologies via Surrogate Testing
- * Assessing Workplace Exposures & Directing Risk Control Strategies

Developing Corporate EHS Standards (Moran)

- * Standards as foundation of Corporate Governance
- * Development and Review Process
- * Web-based with 'drop-down' menus
- * Use of Standards for improving facility EHS Management

ABOUT THE SPEAKERS:

Mr. Perry Howard, PG, is the Wyeth Corporate Director of EHS responsible for the global management of the Environmental Remediation and Environmental Due Diligence programs. Prior to joining Wyeth in 1990, Mr. Howard had 15 years of environmental experience, including responsibilities as an Oceanographer with the Univ. of Rhode Island, a Research Scientist with the US Geological Survey, and as a Consulting Hydrogeologist with firms in Louisiana and New Jersey.

New Jersey Chapters: ACHMM and ASSE Dinner Meeting

October 25, 2005 DINNER MEETING

Dr. Lawrence Wylie, PhD, CIH, CSP, is an Associate Director of EH&S responsible for Occupational Health and Toxicology programs. Dr. Wylie has over 30 years of experience in Occupational Health and Industrial Hygiene. Currently, he directs the establishment of occupational exposure guidelines and risk control bands for new pharmaceuticals and oversees corporate policy development and the implementation of global workplace industrial hygiene risks assessments.

Mr. Alan Moran, CSP is the Senior Director of EH&S responsible for global management of Wyeth's Occupational Safety and Health program. Mr. Moran has 30 years of experience in the Safety and Health field and has managed Safety in the chemical, steel and infant formula industries, prior to joining Wyeth in 1992. Alan is a Certified Safety Professional (CSP) and currently supervises nine Safety and Health professionals in Wyeth's Department of Environment, Health and Safety.

COST: \$25.00 (Pay at the door by cash or check, payable to "NJ ASSE")

REGISTRATION: Register On-Line at www.njasse.org by October 21, 2005

DIRECTIONS TO WYETH:

From Northern New Jersey

- * Route 287 (south) to Exit 35 (Madison Avenue)
- * Make a left at the light onto Madison Avenue
- * Continue on Madison Avenue, Route 124 to 6th light (Dodge Drive).
- * Turn right at 6th light into Giralda Farms site.
- * Sign in at the Security Gate.
- * Proceed past the entrance to Wyeth (5 Giralda Farms).
- * Turn left into the entrance for Seven Giralda Farms
- * Go to the end of the road for the visitor parking lot

From Southern New Jersey

Take Route 287 North to Morristown - Exit 35 for South Street.

- * Follow a right at light and the first left onto Woodland Avenue.
- * Continue 2 miles to the back entrance of Giralda Farms on your left.
- * Sign in at the security gate.
- * Make first right into the entrance for Seven Giralda Farms.
- * Proceed to the visitor parking lot.
