

AMERICAN SOCIETY OF SAFETY PROFESSIONALS

New Jersey Chapter

January 24, 2020 Meeting Webinar 12 Noon

So, you are a new Safety Manager, or Director, and need learn more about the health and safety exposure and incident history, and how to establish goals for the organization. What are the right metrics to analyze? What metrics add value?

Join us for a 45-minute presentation followed by Q&A where you are sure to learn more about this topic at this month's Webinar on Metrics Concepts for New Safety Managers.

Our Speaker is Paul Esposito, CIH and CSP with STAR Consultants, Inc. With over 40 years of experience, Mr. Esposito has a master's degree in Safety and Health from Johns Hopkins and has been consulting with Fortune 500 companies for the past 30 years. He is a member of the committee re-writing the ANSI Standard on Metrics (Z16) as well as a contributing author to the AIHA "Leading Health Metrics" publication due out late this spring. Join us as we give him a warm Platinum-Level NJ ASSP welcome for presenting.

Looking forward to having you on the Webinar Meeting!
